

Relative academic growth of students¹ CCSD high schools,² 2011-2012

About these ratings

Data: CCSD School Performance Framework reports, as compiled by TransparentNevada.com.

¹ According to CCSD criteria.

² The three campuses of the College of Southern Nevada High School — Cheyenne, Charleston and Henderson — offer junior- and senior-year high school classes, i.e., classes for grades 11 and 12. As the School Performance Framework measures academic-growth gains from a 10th-grade base, and CSNHS does not offer a 10th-grade curriculum, no SPF metrics for growth are calculable for the campuses.
